## What is EBN?

The United States Bankruptcy Courts, and the BNC in conjunction with the Administrative Office of the U.S. Courts, are now offering a new way for the bankruptcy community to receive notices from the bankruptcy courts electronically. Electronic Bankruptcy Noticing, or EBN, is a free service that allows bankruptcy notice information to be transmitted electronically to those who request it. In lieu of paper notices, EBN allows you to choose to receive bankruptcy notice data in one of three ways:

**Internet E-Mail** - For recipients who want the speed and convenience of receiving notices on line.

**Fax** - For recipients who don't want to set up an Internet E-Mail account, but want to eliminate mail pieces.

**EDI** - For high-volume recipients (200 or more notices per week) who want to automatically process data using computer database to computer database transfers.

## Benefits of EBN

Participation in the free **Electronic Bankruptcy Noticing service** can offer many benefits. EBN technology is operated by the Bankruptcy Noticing Center (BNC) to provide enhanced service to the

bankruptcy community. In lieu of paper notices, Bankruptcy noticing data can now be Faxed, or E-Mailed allowing desktop display of the entire notice for easy reading or printing. All notice types that are transmitted electronically to the BNC from the courts can be E-Mailed or Faxed to you. Electronic bankruptcy notices are delivered days faster than the U.S. Mail if you have a PC with Internet connection or a Fax machine.

## Requesting EBN Service

Bankruptcy Rule 9036, which authorizes electronic noticing, requires recipients to request electronic noticing services in writing. Creditors wishing to take advantage of electronic noticing must sign a Noticing Agreement with the court to ensure understanding of the EBN process and roles of the parties. For more information please visit the EBN's web site at:
