
Reminder

When filing at the Bankruptcy Court, District of Puerto Rico, do not use the instructions in this section unless you are filing a document that exceeds 2MB in size.

Take all your documents, main (motion) along with the supporting evidence and merge them into **ONE** file.

For example; a motion for relief of stay under 362 should be merged with the Note and other supporting evidence and be filed as one document, (not as an attachment).

Nevertheless, if the resulting document is larger than 2MB in size you must contact the USBC help desk for further technical instructions.
